My stage

I ^{did} made my work experience in Roth's at Henley Bus. It's very cool because the employers ^{were} kind with me and the job is very interesting. In Henley, they are so ^{many} jobs (electricity, mechanic...). My dad works at this industry and he made a good choice. The Monday, I discovered the industry and I look a person who made the electricity in the bus and it's ~~soooooo~~ complicated! But, I liked the difficulty and I liked this job. The other days ^{were} ^{it's} ^{way} interesting for me because ^{it's} ^{way} not complicated and ^{it's} ^{way} every day ^{was} the same jobs. But, the electricity and the ^{computer} ^{IT} ^{is} not the same task. The Friday, I look at the electronics and ^{it's} ^{way} special. It's good but is... very special. But I had a very good week, I liked my work experience. ✓
